What is the Climate-Smart Destination Network?

A new network connecting destinations that want to make tourism more climate-smart

- **Connecting destinations**
  DMOs, municipalities and destination organisations from the Baltic Sea Region and beyond
- **Sharing knowledge & experience**
  Practical solutions, good practices and peer learning
- **Driving climate-smart tourism**
  Supporting destinations in moving towards more sustainable and low-carbon tourism

Established through the Interreg Baltic Sea Region-funded CliNeDest project
